Description

strom noir is a project of Emil Matko, born in 1979 and now living in Bratislava, Slovakia. He is wellknown from his releases on u-cover (ylomejja, kruhyNAvode), amsine (luyyoo) and format noise (lorawa).

“kueyen” brings you six atmospheric ambient-experimental tracks, built mainly with electric and acoustic guitar loops, synth-layers and some well-arranged field-recording elements. Deep, sometimes really dark droning elements, repetitive melodic structures and more abstract electronic sounds were composed to six works with a big ambience and a little melancholic touch. Especially the combination between the rougher guitar loops and the cleaner synth-parts opens up a new and wide soundworld to the listener.

A great release to enjoy the last summer evenings here in Europe.
Please lay back, watch the stars above you and enjoy “kueyen”.
